In the tradition and spirit of the many wonderful long-distance walks for peace, **Veterans For Peace** has initiated a National Project which began May 7th, 2024, -- a walk from Maine to arrive in Washington DC in July. We'll be walking for the wellbeing of all people. We will be walking for peace and an end to the threat of nuclear weapons and all wars, and for an environment that supports all life. **PeaceWalk 2024** is open to all who love peace and want to walk for it. Folks can join the walk for as little or as long as they wish. **The walk will conclude at the NATO summit in Washington DC around July 4th – 5th. In the Philadelphia area this is part of **The Campaign to Save The Future** and the **Daniel Ellsberg Days of Action, June 11 – June 19th – We will conclude on Juneteenth!****
